#### Section 3: Hazards Identification

**Emergency Overview** Clear, colorless to straw colored liquid. May cause irritation or burns to the eyes, skin, gastrointestinal tract, and respiratory system.

##### Potential Health Effects:

**Skin:** Causes irritation and/or corrosive burns. Brief exposures may cause irritation and defatting of the skin.  
**Eyes:** Causes irritation and/or burns and may result in permanent injury to eyes including blindness.  
**Inhalation:** Mists and vapors can irritate the throat and respiratory tract. High vapor concentrations may cause central nervous system effects. Symptoms may include headaches, dizziness, drowsiness and death.  
**Ingestion:** Although of moderate to low toxicity, ingestion can cause gastrointestinal irritation, nausea, vomiting and diarrhea, and death.  
**Chronic:** None known

#### Section 4: First Aid Measures

**Eyes:** Immediately flush eyes with water for 15-20 minutes, while holding eyelids open. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Seek medical attention at once.  
**Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.  
**Inhalation:** If symptoms are experienced, move victim to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.  
**Ingestion:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.  
**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

#### Section 5: Fire Fighting Measures

**Flash Point:** >200°F (>105°C) - Pensky Martin Closed Cup  
**Upper & Lower Flame Limits** Not determined

# Material Safety Data Sheet – BACTI BARRIER DETERGENT/DISINFECTANT

**Extinguishing Media:** Dry chemical, foam, carbon dioxide or water fog. Solid water streams may spread burning liquid.

**Fire Fighting Equipment & Instructions:** Firefighters should wear full protective clothing including self-contained breathing apparatus. Cool fire exposed containers with spray.

**Hazardous Combustion Products:** Irritating and toxic gases or fumes may be released during a fire.

**Unusual Fire Explosion Hazards:** Combustion products are toxic.

## Section 6: Accidental Release Measures

### Spill and Leak Procedures

**Emergency Action:** Isolate spill or leak area immediately. Keep unauthorized personnel away. Stay upwind. Keep out of low areas where vapors may accumulate.

**Spill Cleanup:** Ventilate closed spaces before entering. All equipment used when handling the product must be grounded. Floor will be slippery. Do not touch or walk through spilled material. Stop leak if you can do it without risk. A vapor suppressing foam may be used to reduce vapors. Prevent entry into waterways, sewers, basements or confined areas. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Use clean non-sparking tools to collect absorbed material.

**Large Spills:** Dike far ahead of liquid spill for later disposal. Water spray may reduce vapor but will increase foaming. Water may not prevent ignition in closed spaces.

## Section 7: Handling & Storage

**Handling Procedures:** Avoid contact with skin and eyes. Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using toilet facilities. Wash thoroughly after work using soap and water.

**Storage Procedures:** Keep the container tightly closed and in a cool, well-ventilated place. Keep from freezing. Do not handle or store near an open flame, heat or other sources of ignition. Prevent electrostatic charge buildup by using common bonding and grounding techniques.

## Section 8: Exposure Controls/Personal Protection

**Engineering Controls:** Provide adequate local exhaust ventilation (explosion proof) to maintain worker exposure below exposure limits.

### Personal Protective Equipment:

**Eyes/Face:** Wear chemical goggles. Use a face shield if splashing is possible.

**Skin:** Use impervious gloves (rubber or neoprene). Wear suitable protective clothing.

**Respiratory:** If exposure limits are exceeded or if irritation is experienced, a NIOSH/MSHA approved respiratory with an organic-vapor removing cartridge with a prefilter approved for pesticides should be worn. Ventilation and other forms of engineering controls are often the preferred means for controlling chemical exposures. Respiratory protection may be needed for non-routine or emergency situations.

**General:** Eye wash fountain and emergency showers are recommended.
